About K K Wagh Education Society -

K K Wagh Education Society is a well-known educational trust in Nashik District, established in 1970 by the visionary leader Late Padmashree Karmaveer Kakasaheb Wagh. He strongly believed that education is the key to social and economic development, especially for rural communities. With this vision, he started the society with a small school in Niphad Taluka to provide educational opportunities to rural students. Later, the society received 23 acres of land from philanthropist Late Kakuseth Udesi, which was used to develop the renowned technical campus Hirabai Haridas Vidyanagari. This campus includes Engineering, Polytechnic, and Pharmacy colleges. Over time, the society expanded into various fields such as Agriculture, Agricultural Engineering, Education, Fine Arts, Performing Arts, Arts, Science, Commerce, and Computer Science at different locations including Nashik, Kakasaheb nagar, and Chandori. The society's main objective is to offer quality education at an affordable cost. Today, K. K. Wagh Education Society manages 29 institutes, educating over 23,000 students with the support of 1,900 dedicated staff members and a strong alumni network spread worldwide.

About The Conference

Recent Trends in Computer Science & Applications (RTCSA) is an Academic Conference that provides a platform for Researchers, Academicians and Students to share knowledge and insights on Emerging Technologies in Computer Science. The conference focuses on current and innovative trends such as Artificial Intelligence, Data Science, Cloud Computing, Cyber Security, IoT, Blockchain and related applications. RTCSA aims to promote research culture, interdisciplinary collaboration and discussions on technological advancements addressing real-world challenges.

Objectives Of The Conference

- To provide a platform for researchers & academicians to present recent research work.
- To discuss emerging trends and advancements in Computer Science and applications.
- To promote research, innovation and interdisciplinary collaboration.
- To facilitate knowledge exchange between academia and industry.
- To encourage students and young researchers to engage in research activities.

Conference Themes

1. Artificial Intelligence

2. Machine Learning

3. Generative AI

4. Data Engineering

5. Soft Computing

6. Grid Computing

7. Data Science and Big Data

8. Blockchain and Web3

9. Robotics & Automation

10. Digital Forensics

11. Brain Science

12. No-Code / Low-Code Technologies

13. Quantum Optics and Photonics

14. Cyber Law and Cyber Security
